

TWINDLY BRIDGE EXPO

One of the responsibilities when enrolling with Twindly Bridge is to join us in a celebration of learning known as the "Expo". It is an event where Twindly Bridge families gather together to socialize, eat, and share educational experiences with one another.

The EXPO is our school's student showcase of year-long projects. Projects are based on something that is of great interest to the student: flying, hockey, dance, sewing, hunting, showing dogs—the sky's the limit! The idea is to expand a student's interest by exploring it throughout the year.

Why?

To share your growing knowledge with us!

Educationally speaking, project based learning is strongly encouraged at Twindly Bridge. Part of the school's mission statement explains that project based study will be used to inspire an enthusiasm for learning.

How?

Show us what you've learned!

A written paper centered on an essential question, a dance performance, a display of information similar to a science fair project, a recording of original music performed by the student, a PowerPoint presentation, or a portfolio of student-created artwork all demonstrate the learning that has taken place. Do a demonstration, show us your artistic talents, perform a one-person play— the options are endless!

Where?

The best location possible.

The venues change depending on the population of our students, time constraints, and available openings. We will contact all of our Twindly Bridge families to let you know exactly where it will be this year.

When?

When things are winding down...

We wait until after sessions and after SBA testing. This usually puts the time frame at the end of April or the very beginning of May.

Who?

All of you!

It's important that all of our Twindly Bridge families participate!

So, now what?

Students and parent teachers need to think about, plan, and create a student expo project.

Remember: it can be *ANYTHING* that relates to what a student has focused on in his or her learning this year!
